

Calvary Christian Homeschool Partnership Program

Calvary Christian School is expanding its friendship with the homeschooling community. Understanding that the Bible holds parents accountable for their student's education and developing in their children a Christ-centered worldview, CCS seeks to come along side parents and offer opportunities that may not be available through traditional homeschooling.

The CCS Home Education Partnership program has been established for the purpose assisting Christian homes in educating their children in accordance with biblical standards and credible academics. CCS seeks to be good stewards of our excellent faculty and our facilities by seeking to accommodate the needs of homeschool families.
