# JUMP START

Jump Start Sports is a perfect place to start young children in sport. In Jump Start, they get a chance to fall in love with the fun of sport without the focus on competition. Sports were designed to be fun first with the competitiveness coming as children progress in the fundamental skills.

Children develop at different rates and all have different strengths and weaknesses. Jump Start teaches the fundamentals progressively so children can experience success. Parents are always invited to participate with the child, helping in drills and skills to increase their child's fun and success.

Jump Start seeks to develop proper fitness, motor skills, and eye-hand coordination that will allow them to enjoy and succeed in their youth sports future!

## Benefits of Participation

- Builds confidence and self-esteem in children.
- Fun and positive early experience in sports.
- Helps prepare kids for future sports success.
- Helps prepare kids and parents for specific sports.
- Quality time together for parent and child.
- Helps parents learn how to support and teach their child.

## Calvary Christian School Athletics

COMPETITION is a great tool in teaching team work, self-control, and camaraderie. Calvary's athletic teams provide students in grades 5-12 with the opportunity to compete in interscholastic sports.

Seventh through 12th-grade students compete in junior varsity and varsity interscholastic competitions.

Boys compete in soccer, basketball, and baseball, while the girls compete in volleyball, basketball, and soccer. Students in grades 1-9 also participate in regular physical education classes.

Skills developed in our sports and P.E. programs develop life lessons of leadership, character, and personal discipline.
